BRIEF ABOUT CCI

The Cotton Corporation of India Ltd. (CCI), established in 1970 under the administrative control of the Ministry of Textiles, Government of India, is a nodal agency for procurement of raw cotton at Minimum Support Price (MSP) operations to safeguard the interests of cotton farmers. CCI undertakes procurement operations whenever the market price of kapas falls below the MSP announced by the Govt. of India, ensuring MSP rates for cotton to farmers. The cotton procured under MSP operations is processed in Ginning and Pressing Factories hired on job-work basis by CCI and cotton-seed and lint is separated and Lint cotton is pressed in the form of FP Cotton bales. Besides procurement, CCI also plays a vital role as a supplier of quality lint cotton to the textile industry.

With a view to safeguard the interest of cotton farmers in all the cotton growing regions and to ensure smooth supply of good quality cotton to the textile industry in India, the Corporation is having PAN India presence through headquarter at CBD Belapur, Navi Mumbai (Maharashtra), 19 branches and more than 500 cotton procurement centres in all major cotton growing States. CCI operations cover all the cotton growing states in the country comprising of:

- Punjab, Haryana and Rajasthan in Northern Zone
- Gujarat, Maharashtra, Madhya Pradesh & Orissa in Central Zone and
- Andhra Pradesh, Telangana, Karnataka & Tamil Nadu in Southern Zone

CCI buys Seed Cotton (Kapas) directly from the cotton farmers under MSP in Agricultural Produce Market Committees (APMC) yards. CCI officials remain present in such markets from the day one of the arrivals till the same continues. The Corporation is doing the marketing operations through a network of 19 branch offices located in different cotton growing States and sale offices in cotton consumption States in the country.

PROCESSING AND SALE OF COTTON:

Corporation carries out its marketing operations with the twin objectives of offering MSP price for Kapas to the cotton growers on the one hand and meet the ever-increasing requirements of quality cotton from the textile mills. In order to meet the growing demand of quality cotton of the textile mills at large, a stringent drill is followed through variety-wise & grade-wise purchases of kapas, its processing, packing, sample testing and scientific storage of cotton bales in the warehouses.

To overcome the problem of contamination in cotton, maximum quantities of kapas procured are arranged to be processed in the modern ginning and pressing factories hired by CCI on job-work basis. CCI also carries out efforts to process Kasturi and Platinum parameters bales out of the kapas procured and upgrades such bales on Kasturi Cotton Bharat portal once the test results received meets the Kasturi cotton quality parameters. In addition to this, good quality grey cloth is being used extensively for packing of cotton bales.

In view of the CCI's reputation of maintaining high standards in quality, Corporation, over the years, has acquired the status of a "Dependable Supplier of Quality Cotton" in large quantity along with a professional pre and after sales service.

TENDER FOR APPOINTMENT OF AGENCY FOR HANDLING

SAMPLING & TESTING OF FP COTTON BALES FOR COTTON SEASON 2025-26

SCOPE OF WORK

CCI intends to engage a reputed independent agency having operations internationally / PAN India for handling FP cotton bale lint sampling of bales procured under MSP during cotton season 2025-26 at more than 500 procurement centres where around 1200 Ginning and pressing factories are likely to be hired by CCI. The list of proposed procurement centres for Cotton Season 2025-26 is provided separately in this tender document. The detailed scope of work shall include, but not be limited to, the following:

1) Cutting 2% samples from each lot of 100 bales processed from cotton procured under Minimum Support Price (MSP) operations at every factory of procurement centres. (1-50 bales -1st sample and 51-100 bales 2nd sample) Per bale 1.5kg of sample to be cut, 500gms for testing, 1 kg counter sample to be submitted to respective branch office/centre for reference purpose.
2) At the time of drawal of Lint cotton sample from FP bales, moisture content in bales should be tested in 10% bales for which all procurement centers are equipped with moisture meters. The average lot moisture percentage of 10 bales moisture readings per lot shall be recorded and mentioned in the test report / separate report that will be submitted by the sampling agency to CCI.
3) Samples shall be coded with unique unidentifiable code by the agency in such a manner that particulars such as Branch, Centre, Variety, Lot Number, Sample Bale Number and Godown details are not disclosed to the designated Cotton Testing Laboratories.
4) Dispatch of coded samples by the agency directly to the designated Cotton Testing Laboratories (CTLs), as per the list made available by CCI. The list of Cotton Testing Laboratories for the cotton season 2025-26 is provided in this tender document. Depending upon the testing capacity and output of the Labs, the agency shall allocate samples for testing to ensure test results are received in time bound manner by the agency and in turn the agency submits the test reports to CCI. Testing charges will be paid directly by the Branches of the Corporation to concerned cotton testing labs. The bills of the Cotton testing Laboratories should be submitted by the agency after duly verifying the same to respective Branches of CCI for payment.
5) Decoding of test results received from CTLs should be done by the agency and submission of test reports (both hard copy and soft copy) to the concerned BO/HO, along with uploading the same into the CCI software shall be the responsibility of the agency within the timeline of 30 days from the date of pressing of Lot.
6) The agency shall also identify those lots that meets the quality parameters of Kasturi Cotton and inform/submit the details/test reports of such lots separately to the concerned branch.
7) The agency shall be maintaining proper documentation in respect of sampling, dispatch, coding and decoding details, test reports, moisture recordings in lots and data entry for record and audit purposes whenever asked by CCI.
8) In case of any quality dispute arising at any point, and major variation in quality parameters of cotton if observed in the test results in case of re-testing, it will be the responsibility of the agency and liable for action as deemed fit by CCI.

EXPECTED DELIVERABLES

The appointed agency shall be responsible for ensuring the following deliverables during the contract period:

a) Conduct sampling of all FP cotton bales lots strictly in accordance with CCI's operational guidelines i.e. 2% sampling per lot and 10% moisture readings per lot in time bound manner. From the readiness of lot of 100 bales at the factory, all the work upto submission of test reports should be completed within 30 days of date of pressing of Lot.
b) Ensure proper unique unidentifiable coding, packaging, and sealing of samples to prevent identification or tampering.
c) Ensure timely dispatch of samples to the designated CTLs through reliable courier/transport arrangements.
d) Maintain strict confidentiality and security in handling samples, records, and test data.
e) Ensure the test results are obtained from the concerned Cotton Testing Labs in time bound manner. The agency shall have to continuously make a follow-up for obtaining test results from concerned Cotton Testing laboratories. Decoding of the test results received and submission of results to CCI.
f) In case of any in-ordinate delay in submission of test results, it shall be the responsibility of bidder agency to take appropriate action including re-allocation or transfer of samples to other laboratories at the cost of agency. Losses if any sustained by the Corporation for any delay in work assigned, shall be recoverable from the bidder agency.
g) Deploy adequately trained operational staff familiar with sampling, coding, and documentation procedures in time bound manner at the centers.

RESPONSIBILITIES OF THE AGENCY

The agency engaged for sampling & testing operations shall be responsible for the following:

1. Deployment of Trained Manpower - Ensure that sufficient, qualified, and trained personnel are deployed at all procurement centers to carry out sampling, coding, dispatch, and data entry work as per CCI's guidelines and requirements.
2. Compliance with CCI Guidelines - Strictly adhere to operational instructions of time bound sampling procedures, moisture readings, coding and decoding formats, and timelines prescribed by CCI of 30 days from the date of readiness of FP bales lot in the factory
3. Confidentiality & Integrity - Maintain confidentiality of test results and prevent misuse, manipulation, or tampering of samples and data.
4. Logistics & Documentation - Arrange for safe packaging, handling, and reliable transportation of samples to CTLs and maintain all required records/documents for verification and audit.
5. Safety & Statutory Compliance - Ensure safety of personnel and compliance with all applicable labour laws, statutory obligations, and insurance coverage for deployed staff.
6. Liability for Losses - Be fully responsible for any loss, damage, or discrepancy arising out of negligence, mishandling, or non-compliance by its staff.
7. In the event of any adverse variation observed in test results during re-testing at a later stage, or in case of any dispute arising therefrom, the agency shall be held fully responsible. The Agency shall, therefore, ensure that all processes relating to sampling, coding, packaging, dispatch, and handling of samples are carried out under strict supervision, with utmost accuracy and integrity.
