SCOPE OF WORK

The scope of this tender covers the furnishing of all materials, equipment, plant, labour, scaffolding company applicator, transport, tools and services for the Repair/Renovation and other allied works of 02 nos. toilets at Warehouse No. 1 and near Warehouse no. 3, at CCI warehousing complex, Plot no. S-5, Sector No. KWC, Kalamboli, Navi Mumbai – 410 218.

1. The quantum of work involved is given in the bill of quantities, however it shall be clearly understood that the quantities are only approximate and meant for the purpose of tender comparison only and no claim whatsoever, will be entertained by the OWNER if the actual quantities of work differ from those indicated in the schedule or if any items of work are deleted from the schedule either partly or wholly, nor shall any claim be put forward by the contractor on grounds of overheads and or loss of anticipated profit etc.

2. The item rates quoted in the bill of quantity should also remain valid for a 25% (Quantum of work) Plus or minus variation in the quantity of work awarded and plus or minus 10% of total contracted value.

3. The work should be carried as per approved scope of work listed in the "Bill of Quantity". Should there be any circumstances warranting change in the scope of work, then same should be effected only after prior written approval of the Competent Authority.

TERMS AND CONDITIONS:

1. Party/ tenderer shall visit the site before giving its bids, to avoid any confusion.

2. The offer shall remain valid for a period of **90** days from the last date of submission of tenders.

3. Evaluation of technical Bid-I shall be as per elegibility criteria and financial Bid-II of the tenderer shall be opened only if it qualifies the technical Bid-I .

4. Earnest Money deposit amounting to **Rs.23700/-** (Rupees: Twenty Three Thousand Seven HundredOnly) in the form of Crossed Demand Draft/Pay Order/NEFT/RTGSdrawn on any scheduled Banks in favour of The Cotton Corporation of India Limited, payable at Mumbaimust be accompany the technical Bid-I.

5. EMD Exemption: Vendors registered under 'Micro & Small Enterprises Act' (MSE) are exempted from submission of EMD. Exempted bidders should provide a valid certificate issued by any approved body of 'Ministry of Micro, Small & Medium Enterprises' (MSME) such as 'National Small Industries Corporation' (NSIC) for EMD exemption. However, if work is allotted, then EMD has to be deposited.

6. If the tenderer neglects or refuses for their rates quoted after submission of their tender to comply with the above conditions or any of them, the earnest money deposit already paid shall be forfeited and the party may be debarred/blacklisted . This is applicable in case of the party surrenders itself / himself from their rates quoted and not ready to execute even if fit for award of work by the corporation or back out from the work by keeping it incomplete.

7. The successful tenderer shall have to make payment of 10% value of the actual work done towards security deposit. 50% of the security deposit inclusive of EMD shall be made within 05 (five)working days from the date of work order and balance 50 % shall be recovered from the final bill of the tenderer, which shall be kept as mentioned in clause no. 8 and 9.

8. The defect liability period of 12 months shall be from the date of completion of works as certified by the Engineer in- Charge. The security deposit of 10 % of the total value of work done during this work will be withheld with the corporation till the satisfactorily completion of defect liability period. However no interest will be paid on EMD/Security Deposit.

9. If the defect arising during the defect liability period is not rectified by the party on time or is not found satisfactory, in both these cases the security deposit shall be forfeited by the Corporation and work shall be carried out by other party along with this the existing party can also be debarred/blacklist by the corporation, if it fails to perform satisfactorily during defect liability period.

10. All the approved rates shall be inclusive of all material, labour, tools, transportation, scaffolding etc. complete. The quoted rate shall be in Indian currency i.e. in Rupees. Bidders are required to quote prices individually both in figures as well as in words for each item in the Bills of Quantities and Sub Head totals in the Summary Sheet and Form of Tender. The amount of each item should be worked out and the requisite total given. Special care shall be taken to write rates in figures as well as in words, and the amounts in figures only in such a way that interpolation is not possible. The total amount shall be written both in figures as well as in words.

11. The Corporation shall release the payment of work in ONE SINGLE Bill AS FULL AND FINAL and payment shall be made after the satisfactory completion of work and submission of bill, record of measurement of work done and recorded in measurement book duly signed by Engineer In-charge and Contractor and the same will be recommended for release of payments within 15 days by the Corporation.

12. The applicable statutory deductions, such as Income Tax, GST TDS, and TDS surcharges, will be deducted from the bills at the prevailing rates as prescribed by the Income Tax Act 1961 and the GST Act 2017.

13. The tenderer shall have to complete work as per technical specifications and should be completed within **45 days** from the date of issue of order. If work is not completed within stipulated period then penalty @ rate of 0.5 % will be imposed on per week calculated on per day basis delay subject to a maximum of 10% of total amount of the total work done value.

14. Bidders are required to quote prices individually both in figures as well as in words for each item in the Bills of Quantities and Sub Head totals in the Summary Sheet and Form of Tender. The amount of each item should be worked out and the requisite total given.

15. While submitting the tender, if any of the prescribed conditions are not fulfilled or are incomplete in any form, the tender is liable to be rejected. If any Tenderer stipulates any condition of his own, such conditional tender is liable to be rejected.

16. Only substantially responsive Bids will be checked by the Owner for any arithmetic errors. Errors will be corrected by the Owner as follows :

    i. In case of lump-sum bid, if there is any discrepancy between the offer quoted in figures and in words, the lower of the two will be treated as the offer.
    ii. In case of item rate bid, if there is any discrepancy between the rates in figures and in words, the rate in words will govern and where there is discrepancy between the unit rate and the line item total, resulting from multiplying unit rate by the quantity, the unit rate as quoted will govern.
    iii. If there is any arithmetical error in totaling of individual items, the correct total shall be computed by the Owner and the same shall govern.

17. No escalation clause shall be considered for any rise in material, labour or other inputs etc. etc. Similarly, no extra unit rate shall be considered in case of **increase** or **decrease** in quantity of individual items. The party shall have to complete the same within the accepted rates.

18. For any damage or injury to any third party or labour is the sole responsibility of the contractor and the Corporation is not responsible for any payment of compensation. The contractor is fully responsible of all such risks and compensation.

19. The electricity and water will be given free of cost to the contractor from the available source. In case it is not available then the contractor shall have to make their own arrangement for the same to avoid the delay in completion of work.

20. On-site storage space will be provided to the Contractor subject to availability. However, the Contractor may erect temporary sheds for storage purposes at his cost with permission of CCI and will not be responsible for Contractor's materials. The Contractor may be required to vacate the storage space and sheds as per exigency without any extra cost to CCI.

21. The tenderer will have to make full proof arrangements of erecting required scaffolding up to height of slabs & walls for the work.Materials must be properly stacked at proper place and shall remain in the custody of the Contractor at his own risk.

22. The entire set of Tender paper Form issued to the Tenderer should be submitted fully priced and also signed on each and every page together with initials & STAMP of the Authorized Signatory on every page. Initial /signature will indicate the acceptance of the tender papers by the Tenderer.

23. The Tenderer shall maintain all necessary and relevant records of material brought inside the premises, its consumption and balance on daily basis in the stock register. All these materials and stock register shall be made available for inspection to Engineer-in Charge as when demanded.

24. Contractor should depute a qualified supervisor dedicated for this work, who will monitor and coordinate work from contractor's side and interact with the Engineer in-charge, responsible for supervision of work, on regular basis. Contractor will take due permission for entry of all his workmen in CCI. No unauthorized person will be allowed to work inside.

25. The work will be executed as per the work order and as per the directions of the Engineer In-Charge.

26. Extension of time for completion of work shall not be granted except for natural calamities and other unseen reasons. However, the contractor shall take proper approval from the Engineer In-Charge in writing.

27. In case of any dispute or difference arising out of or in relation to this work, same shall be governed by The Arbitration & Conciliation Act 1996. An Arbitrator (other than an employee of the Corporation) to be appointed by the Competent Authority of The Cotton Corporation of India Ltd., whose decision shall be final and binding upon the parties.

28. The legal jurisdiction for the purposes of this sale shall always be at Navi Mumbai.

29. Corporation reserves its right to accept or reject any tender (s). However, tenderer may seek the reasons for rejection of their tender from the Corporation.

DECLARATION BY THE TENDERER:

We / I have read and understood all the instructions / conditions made above and we / Ihave taken into account the above Instructions / Terms and Conditions while quoting therates. We / I accept all the above Terms and Conditions without any reservation, in allrespects.

NAME OF THE WORKS: Repair/Renovation and other allied works of 02 nos. toilets at Warehouse No. 1 and near Warehouse no. 3, at CCI warehousing complex, Plot no. S-5, Sector No. KWC, Kalamboli, Navi Mumbai – 410 218

BILL OF QUANTITY

Sr. no.	Particulars	Unit	Qty	Unit rate in Rs. (Excl. GST)		Amount(in Rs.)
A.	**Toilet Repair near Godown no 1 Compartment no 5.**			**In Fig**	**In words**	
1	Removing existing floor and wall tiles, Indian/Western water closets, wash basins, granite platform, urinals, concealed inlet/outlet pipelines, floor drains, nahani traps/bottle traps, loose plaster, and complete existing waterproofing up to slab level, including disposal of debris at an approved municipal dumping site etc complete as directed by the Engineer-in-Charge.	Sq. Mtr	75			
2	Removal of existing cement plaster and re-plastering of internal/external walls, exposed old pipeline wall area and door frame edges with cement mortar 1 : 4 (1 part cement : 4 parts fine sand) using red screened fine sand, 20 mm thick after anti corrosive treatment, finishing smooth, including all associated works like raking joints, hacking, preparation of surfaces, curing including surface levelling, disposal of debris, scaffolding, all materials, labour and incidentals, complete as directed by the Engineer-in-Charge.	Sq. Mtr	75			
3	Providing and applying Brickbat Coba Waterproofing: The scope of work involves the existing brickbat coba to be completely removed upto slab level and surface	Sq. Mtr	17			

	shall be cleaned properly by hard wire brush and washed with water. Applying the slurry prepared with cement and water to a required consistency. It shall be applied over the dampened surface with brushes very carefully, including the joints between the floor slab and the parapet wall, holes on the surfaces and joints of drain pipes in masonry or concrete. The prescribed quantity of slurry application is 2.75 Kg of cement per Sqm. The pot life of the slurry shall be considered as 1/2 hour. The use of the slurry should continue up to a height covering outlet drain pipeline. Laying of 25mm thick base coat is to be carried out soon after the application of slurry when the application is still green. The cement plaster of 25 mm thick with a mix ratio of 1:4 to be evenly applied over the concrete surface. Maintain proper slope of water to avoid water logging in wash room area. Placing of brickbat while the base coat is still green, brickbats of size (65mm to 120mm) to be placed with a gap of 15 and 20mm. The brickbats shall be wholly burnt and are well soaked overnight before laying. After laying of brickbats, curing is to be carried out for a minimum of 24 hrs after which, the gaps between the brickbats should be filled with the same mix mortar used for base coat. Laying of Protective Coat A cement mortar of a 1:4 ratio, prepared with the waterproofing compound and applied over the surface, including the haunches/ gola up to nahani trap area. The surface should be neatly finished with the help of wooden / steel hand float. The curing shall be carried out as per required time period and use complete waterproofing process red fine screened sand only etc. complete as directed by the Engineer In-charge.					
4	Providing new washroom fitting, new UPVC Plumbing inlet water Pipeline, outlet PVC drain pipeline and water tank: The scope work involves providing new concealed of UPVC and PVC, inlet and outlet pipeline provision for 1 Nos. EWC, 01 nos. Indian commode, 2 Nos. Urinals, 2 Nos. Wash Basin, 4 Nos nahani traps, 2 Nos. flush Tank and Valve etc. complete. Also, providing and fixing new plumbing accessories such as 2 Nos. EWC, 2 Nos. Urinals, 2 Nos. Wash Basin with face mirrors Hand Faucet/Jet spray for all WC, all Sanitary fitting and fixtures with 04 nos. nahani traps, 2 Nos. EWC flush Tank and Valve, angle and bib cock, Pillar cock, sink cock, stopcock, Flush tanks, Flush valve etc. The EWC/Urinals shall be made of high-quality vitreous china ceramic sanitary ware and conform to relevant IS standards. It shall include a P/S trap (as per site requirement), soft-close seat cover, and compatible cistern. All sanitary fitting and fixtures shall be of approved manufacturers such as CERA/ Parryware/ Hindware/ Jaquar or other equivalent brands (subject to prior approval by the Engineer-in-Charge). Supply and fixing of 01 nos. new 1000 LtrSintex water tank including inlet/outlet pipeline connection, valves, unions, bends, tees, reducers, and all necessary fittings, with proper alignment and leak-proof joints complete. Providing and fixing of 90 / 110 mm 10 KG pressure Heavy duty drainage and sewerage application PVC	Job	1			

	pipe including spare material PVC pipe, bend, tee, coupler, leak-proof material if required. Pipes to be laid at such a gradient as to ensure a self-cleansing velocity. Ensure pipes to pipe fitting to be watertight joints, Every part of the drainage pipeline system to be adequately supported, Drains to be laid as far as possible in straight lines between points where access is provided. 2 Nos. Rectangular shaped Urinal Partition - 8mm Glass Height: 900mm, Width : 450mm, Two way Bib Cock, Toilet Roll Holder with Stainless Steel Flap, conforming with all necessary required fitting, fixtures and pipeline accessories etc. complete as directed by the Engineer In-charge.					
5	Providing and applying two or more coats of exterior weatherproof 100% acrylic emulsion paint like Apex Ultima of Asian Paints Make/Nerolac/Dulux or equivalent of approved shade minimum two or more coat colour with one coat of primer/sealer as per manufacturer specifications on the external surface of the toilets up to top level. The scope of work involved at all levels after surface preparation by removing and cleaning old existing paint, dirt, algae, fungus, shrubs, etc. completely by scrapping with wire brush, Jet water sprayer machine washing and where ever required cleaning & filling the minor cracks & crevices with crack filler (like GP seal of M/s Pidilite or equivalent make) of that company/brand etc including disposal of the debris, curing, scaffolding, cost of all materials, labour charges etc. complete as required and directed by Engineer In-charge.	Sq. Mtr	90			
6	Providing and laying new vitrified double charge floor and wall tiles: Providing & Fixing of anti-skid floor tiles 600 x 600 mm and vitrified wall tile in size 1200 x 600 mm (First quality, free from cracks, chips, or any surface defects) with Kajaria/Nitco/Johnson& Johnson/Simpolo/Qutone make or equivalent & colour as approved by the Engineer In-charge (thickness to be specified by the manufacturer) with water absorption less than 0.08% and conforming to IS: 15622, of approved make, in all colors and shades, laid on 20mm thick cement mortar 1:4 (1 cement : 4 coarse sand), jointing with grey cement slurry @ 3.3 kg/ sqm including grouting the joints with white cement and matching pigments etc. complete. The cost include costs for curing, scaffolding, cost of all materials, labour charges etc. complete as directed by the Engineer In-charge.	Sq. Mtr	75			
7	Providing and Fixing of main incoming line with 40 mm Heavy duty UPVC (80 scheduled rounds) of Prince/Ashirwad/Swastik or equivalent make pipeline spare material like union, coupling, Tee, barrel nipple, M TEE, F TEE, including road crossing digging and excavation with Refilling/over lapping with material etc. complete as directed by the Engineer In-charge .	Rn. Mtr.	30			
8	Providing and fixing 27 x 65 mm glossy finish anodized (15 microns) aluminum glazed Section washroom door with 4 mm thickness composite sheet with required hardware, heavy duty Hinges, Handles, tower Bolts, Aldrop inside and outside works also includes granite	Nos.	2			

	double door framing with edge finishing, polishing and molding etc. complete etc complete as directed by Engineer-in-charge.					
9	Providing and fixing Fine wood waterproof 30 mm thick both-side laminated flush door of approved make, shade and pattern complete with all required hardware including heavy-duty brass hinges, handles, door closer, tower bolts and Aldrop etc. complete as directed by Engineer-In-charge .	Nos.	1			
10	Providing and fixing in position glossy/matt finish anodized (15 microns) aluminum glazed windows lowers 18 x 50 section of approved make using 4 mm thick rattle-proof plain glass panels fixed to shutter by means of neoprene rubber beading of equivalent PVC beading including silver grey matt finish outer frame, all necessary fixtures, fastenings, locking devices, PVC weathering strips, nylon gliders works includes with granite single framing with edge finishing, polishing and molding etc. complete as per existing type material and matching specifications complete as directed by the Engineer-in-charge.	Sq. Mtr	2			
11	Making, Testing and Commissioning of soak pit 1200 mm width x 1200 mm long with 1800 mm Deep on ground level works including Excavation of soak pit, making soak pit brick wall and Top cover with 75 mm thickness, after brick work filling up to 800mm on coarse rocks-charcoal/sand/gravel on the bottom of the pit, watering and curing of brick work and connection to PVC pipe with making 3 nos. inspection chamber 450 x 450 mm inner side size on septic tank. The works includes cleaning of existing septic tank, required slope maintained on existing Toilet chamber, connection to septic tank etc. complete as required and as directed by Engineer-in-charge.	No.	1			
12	Replacement of all electrical fitting with new 180 x 180 mm, 15 watts branded LED surface panel (phase, neutral and earth) of Crompton/ Phillips/Orient or equivalent make as directed by the Engineer In-charge.	Nos.	4			
13	Replacement of all electrical switch board with new modular type switch, socket etc. of Roma/Legrand/Havells or equivalent make with required additional concealed point wiring using multi-strand 1.5 sq.mm wire (phase, neutral and earth) as directed by the Engineer In-charge.	Job	1
